Barber of Sheffield Ltd

Barber Medical is a trading department of Barber of Sheffield Ltd, which has been established for over 25 years, supplying a number of markets, including mortuary & pathology departments, laboratories, funeral directors, university medical schools, emergency services, search & rescue teams and veterinary companies.

Originally founded on needles for the autopsy and veterinary markets, we have continued to expand our range, offering a broad spectrum of products into these markets. Barber Medical has a long established relationship with the NHS and are now the UK's market leading mortuary and autopsy supplier, offering a vast range of products including capital equipment, body bags, post mortem needles, scalpel blades, mortuary saws, instruments and much more. We have expanded our range to export worldwide to various markets, with our vast range of suture needles for autopsy and veterinary use, and other products used all across the world.

We pride ourselves on the quality of our range, partnering with high quality stainless steel manufacturers to offer the highest level of quality in needles, instruments and equipment. We are proud of our level of service, holding the majority of our products in stock, which enables us to provide next working day deliveries. As well as our broad range of stock, we can offer bespoke equipment, tailored to the customers' requirements and we are happy to send one of our representatives out to meet you to discuss your requirements.

To discuss any of our products please contact our customer service representatives on **0114 3493797** or email us at **sales@barbermedical.com** and we will be pleased to assist you. Our Barber Medical Sales Manager details are below:

Name: Ian Couldwell

1460 x 1200mm
Pack of 50

Needles

Our Barber Medical department is the market leading mortuary needle supplier in the UK. Our range of post mortem needles have been specifically designed for the needs of mortuaries, but due to their extra thickness and larger sizes, these are also used in other industries, including large animal use in the veterinary industry. The post mortem needles are available in 3/8 circle (curved), 1/2 curved, serpentine (s-shape), 1/2 circle and straight, in packs of 12 and in the following variants:

Post Mortem Needles

3/8 Circle

Product Code	Description	Pack Size

826-S-3	Mayo 1/2 Circle Trocar 38mm	25 Pouches
826-S-4	Mayo 1/2 Circle Trocar 35mm	25 Pouches
826-S-5	Mayo 1/2 Circle Trocar 32mm	25 Pouches
826-S-6	Mayo 1/2 Circle Trocar 28mm	25 Pouches

Other Suture Needles

Outside of our post mortem needle range, we have a vast range of eyed suture needles available, currently supplied to the veterinary industry, which are available in sizes 1-20 (80mm-23mm). The below diagram shows the sizes available:

All these needles are available in packs of 12:

3/8 Circle Eyed Suture Needles

The 3/8 circle needles, which are also referred to as 'curved', are the most commonly used veterinary needle. The curvature makes it easy to manipulate in large or superficial wounds:

Product Code	Eye Type?	Point Type?	Body Type
NCTC.01 to NCTC.20	Regular	Triangular Cutting	Conventional
NRBC.01 to NRBC.20	Regular	Round Taper	Conventional
REVNCTC.01 to REVNCTC.20	Regular	Triangular Cutting	Reverse
SCTC.01 to SCTC.20	Spring Eye	Triangular Cutting	Conventional
SRBC.01 to SRBC.20	Spring Eye	Round Taper	Conventional

1/2 Curved Eyed Suture Needles

The 1/2 curved needles are commonly used for the laparoscopic surgical technique in the veterinary industry:

Product Code	Eye Type?	Point Type?	Body Type
NHCTC.01 to NHCTC.20	Regular	Triangular Cutting	Conventional
NHRB.01 to NHRB.20	Regular	Round Taper	Conventional
REVNHCCTC.01 to REVNHCTC.20	Regular	Triangular Cutting	Reverse
SHCTC.01 to SHCTC.20	Spring Eye	Triangular Cutting	Conventional
SHRB.01 to SHRB.20	Spring Eye	Round Taper	Conventional

1/2 Circle Eyed Suture Needles

The 1/2 circle needles are usually used for surgery in confined locations in the veterinary industry:

Product Code	Eye Type?	Point Type?	Body Type
NHCRTC.01 to NHCRTC.20	Regular	Triangular Cutting	Conventional
NHCRRB.01 to NHCRRB.20	Regular	Round Taper	Conventional
REVNHCRTC.01 to REVNHCRTC.20	Regular	Triangular Cutting	Reverse
SHCRTC.01 to SHCRTC.20	Spring Eye	Triangular Cutting	Conventional
SHCRRB.01 to SHCRRB.20	Spring Eye	Round Taper	Conventional

Straight Eyed Suture Needles

The straight needles are used when the tissue is easily accessible, so they are usually used for skin closure or nerve/vessel repair in the veterinary industry:

Product Code	Eye Type?	Point Type?	Body Type
NSTC.01 to NSTC.20	Regular	Triangular Cutting	Conventional
NSRB.01 to NSRB.20	Regular	Round Taper	Conventional

Scalpel Blades

We supply a range of scalpel blades for use in post mortems, research/dissection work by universities/colleges, and in the veterinary industry. These are supplied in the following variants:

Disposable PM40 Blade + Handle

Swann Morton blade with pre-attached handle. Available with blue handle (sharp end), or yellow handle (bull nose/blunt end)

330189B – Sharp End + Blue Handle

330289B – Bull Nose + Yellow Handle

Swann Morton Post Mortem Scalpel Blades

Swann Morton PM blades for use with scalpel handle 3 or 4

330085B – PM40 Bull Nose

330097B – PM40 Sharp End

330191B – PM60 Sharp End

Swann Morton Scalpel Blades

Supplied in boxes of 100 – sterile

42960010 – Size 10

42960011 – Size 11

Electric Saws

De Soutter NS3 Autopsy Saw

Barber Medical are an official distributor for the De Soutter CleanCut NS3 autopsy saw and accessories. All the saws are made to order, with the spares kept in stock. The saw incorporates a hand piece and an extractor unit that operates to the highest standards of pathogenic debris containment and filtration. The saw has the following features:

- 40V hand piece is fully immersible, allowing it to be routinely scrubbed and disinfected after use
- Variable speed operated at the power supply, gives optimum cutting efficiency
- IP67 ingress protection – immersible at 1 metre
- Clear extraction hood – allows for excellent visibility when cutting
- Fully rotatable hood – designed to suit the most convenient cutting position
- Hose attaches securely to the extraction unit, allowing for excellent flexibility
- Five levels of filtration – enabling the system to meet the highest safety standards
- Extraction can be switched on and off by the hand piece
- Suction rate can be switched between high and low, depending on what you are working on

Saw:

369494B – NS3 Saw (with Extractor)

369493B – NS3 Saw Hand Piece

369495B – NS3 Control Box

Blades:

369330B – Circular Blade 51mm

Hand Piece

Medezine Swordfish 5000 Autopsy Saw

Barber Medical are an official distributor for the Medezine Swordfish 5000 autopsy saw. The system was built to cope with the increasing demands of autopsies. It has been designed for ergonomic efficiency to reduce the operator fatigue and is one of the quietest saws available. The hand piece weighs only 1300g and the unit operates on a very safe 40 volts. The saw has the following features

- Redesigned power supply to give more power to the hand piece to cope with increased demand. Available in 110 or 240 volt
- Top mounted power lead for easy removal of the hand piece
- New hand piece storage position to improve stability
- Larger chassis wheels for easier manoeuvrability
- The hand piece now has heavy duty bearings to give a longer life
- Ingress Protection - saw/vacuum unit is IP65 and the hand piece is IP67

Saw:

- 374107B – Saw
- 374101B – Portable Unit
- 374126B – Power Supply
- 374108B – Heavy Duty Saw

Blades:

- 374114B – Segmented Blades 51mm
- 374111B – Circular Blades 64mm
- 374113B – Circular Blades 76mm
- 374123B – Depth Gauge for 76mm Blade

Extraction & Filters:

- 374116B – Paper Filter Bag
- 374117B – Cloth Filter Bag
- 374118B – Micron Filter
- 374130B – Paper Bag Support Ring
- 374115B – Vacuum Hood
- 374119B – Vacuum Pipe 2m
- 374122B – Vacuum Pipe 4m Extension
- 374131B – Vacuum Housing Lid

Other:

- 374125B – Hand Piece 4m Extension Lead
- CLMPKIT – Clamp, Bolt & Washer Kit
- 374121B – Nut Wrench, Screw & Washer
- 374124B – Mains Lead with Armouring
- 374129B – Castors for Base
- 374128B – Chassis Base (with Castors)
- 374120B – Service Kit

Mortuary Furniture – Refrigeration & Racking

Refrigeration

From hospital mortuaries to funeral directors to mosques, we can visit your site to offer a bespoke quotation on your refrigeration and racking requirements.

Refrigeration

The refrigerated mortuary cabinet is available in single or multi door format and as its design is based on a modular format it can be readily adapted to match any particularly configuration or site constraint

- **Modular Design** – the compact cabinets are complete with all internal components and fitted with slotted racking and full width PVC coated rollers enabling up to 4 tier storage. The racking allows simple tool free roller adjustment and is an essential part of the design. If you wish to maximise the space, then we offer a space efficient stub or axle roller option, which support each side of the tray and allow storage up to 5 tiers. Variants allow for obese and bariatric doors, side loading units for smaller rooms and individual doors for ethnic separation
- **Cooling** - the cooling plant is supplied by a world class manufacturer to provide a fully functional cold storage facility. Available in several variants to meet any circumstance or site restriction this equipment is both energy efficient and environmentally friendly. The cabinet rooftop or wall mounted units offer the best value for money, but we can install remote equipment where noise or heat can be a nuisance
- **Benefits** - with a choice of finishes, trays and cooling plant this product meets the highest industry standard and will provide both reliability and longevity. We are confident that you will appreciate the benefits of this equipment and have extended our warranty accordingly

Please enquire on 0114 3493797 or sales@barbermedical.com to discuss your refrigeration and racking requirements or to arrange a site visit so we can provide you with a bespoke quotation

Racking & Body Trays

Racking

Our free standing racking system offers simple storage for cold rooms or cabinets. The user has a choice of tiers, widths, roller types and fabrication – in either powder coated steel or stainless steel. Our value range of racking is designed to provide space efficient storage at a competitive cost. Using a steel free standing fabrication the racking is built as a modular flat pack so it can be designed to fit any space and is ideally suited for self-assembly. We provide a choice of several widths to suit wider trays or coffins, which with the 3, 4 or 5 tiers allow a multi-bay unit to be tailored to fit any site width or height constraint. The racking is available in end loading or side loading, depending on the space you have and the stub roller technology allows for extra space/storage.

Surgical Lamps

Examination Lights

RIMSA Observa Primaled Examination Lights

With its appealing design, the OBSERVA series is technology with unparalleled performance. Top of the range examination light with courtesy light as well as traditional concentrated light. The light is available with a rigid arm only, or a ceiling mounted option, as well as an optional mobile base. RIMSA Primaled lights have the following features:

- 9 LEDs providing 80,000 lux at 50cm
- Selectable colour temperature: 4500k–5000k
- Colour rendering index = 95
- Sterilisable handle
- Dimmer from 25% to 100%
- Diameter of lighted field = 14cm at 50cm
- LED life of greater than 40,000 hours

Surgical Pen Torch

The 680003 surgical pen torch is small and size and can easily be clipped to your clothing so that it is accessible at all times. It is ideal for seeing better when large lamps are either not accessible or will get in the way.
